INVITATION TO ALL RESIDENTS AND BUSINESSES

Gallagher Lake Area Plan Update

Further to recent communication from the RDOS about the current preparation of the OCP for Gallagher Lake, the RDOS invites you to attend an important OPEN HOUSE on APRIL 14, 2015. Your involvement is critical to a new Official Community Plan that will reflect community values and goals.

BACKGROUND
You can assist in setting a vision for your community as it now grows and evolves. It is your community, so please come out and offer your opinions about what the future of Gallagher Lake should look like, the land uses it should contain, the amenities, services and utilities to sustain a livable area. Please understand that the outcomes of the planning exercise will be enshrined in a Plan that has legal sanction. The new OCP will establish the framework for many facets of future Gallagher Lake: all land uses, roads, parks and trails, environmental protection, utilities, and urban design.

APPROACH
This first Open House will be an opportunity to be engaged and present your ideas that will help create policy direction. The consultants and the Regional District will listen to all input that can help form a livable community. This is a drop-in session to view information and contribute your input first hand. We will use a survey, comment boards and staff will be available to receive your general vision or specific notions about future direction for your community. Please take some time to think about your ideas for Gallagher Lake before you attend the session.

DATE: April 14, 2015
PLACE: Ye Old Welcome Inn – Gallagher Lake
TIME: 9:00 to 12:00 Noon (drop-in)

Any questions in advance:

DONNA BUTLER,
Development Services Manager, RDOS
